

Haymes
ULTIMATE
PROTECTIVE COATINGS

Ultimate Low Sheen Anti-Bacterial Single-Pack & Two Pack Architectural Coating System - the ultimate in high performance broadwall water based protective coatings.

ULTIMATE ANTI-BACTERIAL RANGE

BACTERIA + MOULD
RESISTANT FORMULA

Australia's first family of paint.

SINCE 1935

Haymes Ultimate Protective Coatings now includes a revolutionary range of single and two-pack anti-bacterial surface coatings. Ideal for the diverse clinical demands of Hospitals, Surgeries, Aged Care, Laboratories, Veterinary Clinics or Schools.

ANTI-BAC SINGLE-PACK

Ultimate Single-Pack uses the latest low sheen acrylic formulation in a unique water-based coating with the additional benefit of mould, mildew and bacteria resistance. The ultra-smooth durable finish has superior washability with superb film properties for adhesion, coverage, hiding power and overall surface hardness. A low odour, stain-resistant formulation complemented with a 7-year mould and mildew protection guarantee.

- A single-pack low sheen acrylic with superior washability to maintain a long lasting fresh look
- Specifically formulated with mould, mildew and anti-bacteria resistance
- An environmentally friendly low odour/ 99% VOC free water base
- Exceptional coverage that's easy to apply with solid block out
- Stainproof barrier to resist stains and allow easy wash off
- Specifically designed for high traffic and commercial spaces
- 2L, 4L, 15L low sheen tint aligned to a core range of white base Haymes Paint colours

Use On

Suitably prepared brick, concrete, masonry, paper-faced plasterboard, set plaster, timber and pre-painted surfaces. All interior walls including high traffic areas such as bathrooms, bedrooms, dining rooms, feature walls, hallways, laundries and living areas.

ANTI-BAC TWO-PACK

Ultimate TWO-PACK Low Sheen Epoxy Hardener (Part B) is our toughest water based coating that mixes with Ultimate Satin Epoxy (Part A). This creates a high-performance ultra-durable, anti-bacterial, low sheen wall finish. Specifically designed for clinical environments and can withstand the rigours of frequent and harsh cleaning protocols.

- A hard-wearing two-pack system that delivers the ultimate coating performance - mixes with Ultimate Satin Epoxy (Part A)
- Ultra durable and robust coating that can withstand typical cleaning agents i.e. chlorine, ammonium, disinfectant wipes, low-level biocides and benzakonium chlorides
- Specifically formulated with mould, mildew and bacteria resistance
- Environmentally friendly low odour/ low VOC water base
- Beautiful, low sheen finish with superb film build properties, adhesion, and surface hardness
- Specifically designed for harsh environments that mandate the rigours of clinical disinfectant with a high frequency of harsh cleaning
- Less recoats, less maintenance, easy touch-ups deliver long-term cost savings
- 4L & 20L kit systems tint aligned to a broad spectrum of Haymes Paint colours

Use On

Suitably primed interior plasterboard and timber, masonry and pre-painted surfaces including interior walls, feature walls, living and bedrooms, hallways, dining, laundry, ceiling, doors, trim, all interior areas including high traffic areas and areas subject to moisture such as kitchens and bathrooms.
